

TECHNICAL DATA

Steel lug lock cable tie

Temperature range -20°C to +65°C

■ STRUCTURE

- Material: Polyamide (PA) 6.6
- Flammability acc. to UL 94 (V0)

- halogen-free
- silicone-free

■ APPLICATION

- Smooth, notchless cable tie with steel lug lock made of corrosion-resistant, non-magnetic steel and rounded edges. This technology enables the cable tie to offer excellent binding properties even under most rigorous conditions such as heat, cold, humidity etc. It is resistant to vibrations and external influences.

■ PROPERTIES

Type	Length mm	Width mm	Capacity N	Bundle Ø mm	Packaging unit (in pc.)	white Part no.
