Dimensions and specifications may be changed without prior notice.

Jumper cable for the connection between IP20 protected ethernet applications according ISO/IEC 11801 with RJ45 plugs. Usable for normal flexible applications. The special plastic compound which is used for this plug series is good resistant against chemical and oil. Connected to special applications an individual evaluation from our consultants should be done..

We also can deliver other cable length, cross-over cables or other types of plugs.
