

HELUTOOL SZ

TECHNICAL DATA

Screw pliers

■ APPLICATION

- The patented 2-component screw pliers that have been awarded with the Design Prize is the ideal solution for embedded, dirty or corrosion-damaged screws. In addition, the pliers consist of a single joint with induction hardened precision blade. Arched, horizontally and vertically ridged gripping surface, for all self-tapping or metric screws from M2 to M6. The special head shape of the pliers securely surrounds the screw head, thus loosening the screw which can no longer be removed with conventional tools.
Size: 160 mm
Weight: 140 g
Handle: 2-component precision blade
Induction-hardened precision blade with single joint
Compatible with the screw size M2 to M6
